

# ProSolutions 80/20 Surfactant

## GENERAL INFORMATION

Use **ProSolutions 80/20 Surfactant** wherever a label allows the use of a nonionic surfactant or NIS. **ProSolutions 80/20 Surfactant**, when added to a tank mix, improves the performance of pesticides for better control of pests. **ProSolutions 80/20 Surfactant** will increase pesticidal activity by increasing the wetting and spreading ability of the spray solutions.

## DIRECTIONS FOR USE

<u>Applications</u>	<u>Amount of Product per 100 Gallons of Mix</u>
Insecticides	3 to 8 fluid ounces
Fungicides	3 to 8 fluid ounces
Herbicides	1 to 2 pints
Acaricides	3 to 8 fluid ounces
Defoliants	1 to 2 pints
Desiccants	1 to 2 pints
Wettable powders	1 to 2 pints

Different conditions may cause some variation in the amount of this product required. Use the least effective amount of **ProSolutions 80/20 Surfactant** needed to perform correctly. Not for aquatic use.

## MIXING INSTRUCTIONS

Follow the instructions on all pesticide labels. The user must either have previous experience with the specific tank mix being used or must conduct a jar test with the specific tank mix.

Although **ProSolutions 80/20 Surfactant** may usually be added almost anytime during the mixing process, it is strongly recommended that it be added after all other tank mix additives and actives are added. Certainly, any solid formulations must be added and thoroughly mixed into the tank water before adding this or any other liquid products to the tank.

Add **ProSolutions 80/20 Surfactant** as a surfactant last before the final addition of water at the recommended level in the chart above.

## STORAGE AND DISPOSAL

Store in a cool, dry place away from fire, flame or other sources of ignition. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not contaminate water, food or feed by storage and disposal.

**LIQUID DISPOSAL:** Disposal of the liquid must be conducted according to all applicable laws and regulations.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrcycle.org](http://www.acrcycle.org). Decontaminated containers may also be disposed of in a sanitary landfill or as allowed by regulation or law.

**WARRANTY STATEMENT:** Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
