## Defoamer

### DEFOAMER / ANTIFOAM AGENT

#### PRINCIPAL FUNCTIONING AGENTS:

Dimethylpolysiloxane .....	10%
Constituents ineffective as a spray adjuvant .....	90%
<b>TOTAL .....</b>	<b>100%</b>

All ingredients are exempt from tolerance requirements under 40 CFR, 180.

## CAUTION KEEP OUT OF REACH OF CHILDREN

Avoid contact with skin, eyes or clothing. Do not take internally. Wear chemical-resistant eyewear and gloves, long-sleeve shirt and pants and shoes and socks. Do not eat, drink, smoke or chew gum while using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. In addition, follow precautionary statements on all products used with this material. Clean affected clothing, shoes, and protective equipment before reuse.

### FIRST AID

*Call a poison control center or doctor immediately for treatment advice.  
Have the product container with you when calling a poison control center  
or doctor, or going for treatment.*

**If Swallowed:** Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

## GENERAL INFORMATION

**ProSolutions Defoamer** may be utilized with any tank mix and any active for control of unwanted foam. Use **ProSolutions Defoamer** with any tank mix that requires a defoamer to knockdown foam quickly. **ProSolutions Defoamer** also severely reduces foam reformation during mixing and spraying, making applications more efficient by eliminating the need for stopping to add more defoamer.

## DIRECTIONS FOR USE

**Defoaming:** Squirt it directly on foam that has already formed. Stop agitation then add enough **ProSolutions Defoamer** to get rid of foam.

**Antifoaming:** Add **ProSolutions Defoamer** after the first ingredient. Do not add to dry tank or before the addition of water. Some tank mix partners create more foam than others. For ingredients that cause a lot of foam to form and it may require a use rate up to 2 oz. per 100 gallons to adequately control foam. Other factors such as temperature and amount of agitation will increase or decrease the amount of control needed.

## STORAGE AND DISPOSAL

**Storage:** **ProSolutions Defoamer** will thicken in cold temperatures and will freeze below 32°F (0°C). Freeze and thaw cycles may cause the product to separate.. Simply warm and shake the container to help restore the material to its normal consistency for each use after that. For optimum storage stability, store in a cool, dry place at temperatures between 40°F (5°C) and 90°F (32°C). Do not store near oxidizing agents. Keep in original container.

**Disposal:** Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrcycle.org](http://www.acrcycle.org). Decontaminated containers may also be disposed of in a sanitary landfill or burned, as allowed by law.

## WARRANTY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
