Have the produ	Call a poison control center or doctor immediately for treatment advice. ct container with you when calling a poison control center or doctor, or going for treatment.

AQUA BLUE WSB SELECT

POND DYE

GENERAL INFORMATION

Aqua Blue WSB Select tints water a natural blue and restores a beautiful opalescent quality to controlled discharge systems such as lakes, lagoons, ponds or water features that have become dingy and hazy. Non-toxic to aquatic life, pets, water fowl and irrigation systems, Aqua Blue WSB Select is not recommended for use in systems such as rivers or streams where the water flow is not impounded. Swimming, fishing and water sports are safe immediately after application of Aqua Blue WSB Select. When used as directed Aqua Blue WSB Select will not stain concrete, stone, or swimwear. Photo-degradation, biological processes and dilution or chlorine will naturally diminish color intensity over time 2 to 4 weeks. Typically dissolving in 3-5 minutes, easy to use Aqua Blue WSB Select simplifies user contact, clean-up and package disposal.

DIRECTIONS FOR USE

For each 1 acre-foot of water feature surface area, use one packet of **Aqua Blue WSB Select**. Color intensity maybe adjusted by gradually increasing or decreasing the application rate as needed. Place packets near aerators, waterfalls or circulating pumps and evenly spaced across large surface areas to speed dispersal rate. Temperature differences, wind and currents will disperse colorant where there are no mechanical systems. Water may be used for irrigation, aquaculture & recreational purposes including swimming and fishing once dispersed. Treated water is safe for fish and wildlife. Do not apply to water that may be used for human consumption. Do not apply to streams, rivers or bodies of water not under the control of the user.

Use this formula to calculate the volume of water for treatment: Length x width x depth = 1 acre-foot 43,560 (1 acre-foot =325,851 gallons)

STORAGE AND DISPOSAL

Store in original container in a cool, dry place. Ensure proper lid seal after each use. Protect from freezing. Store in low humidity. Triple rinse container, then offer for recycling or dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

WARRANTY STATEMENT

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used n accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
