ProSolutions SC Blue

GENERAL INFORMATION

ProSolutions SC Blue is a highly-concentrated, temporary spray colorant for use in monitoring spray applications.

ProSolutions SC Blue indicates drift, improves application, and helps reduce waste from spraying unwanted areas.

ProSolutions SC Blue may be used in turf and ornamental, industrial and forestry applications or with foam markers, with any type of spray equipment.

The additions of **ProSolutions SC Blue** to a foam marker provides increased visibility so an applicator can visibly see the area that has been sprayed and trace previously treated areas. This allows accurate placement and uniform coverage throughout the spray operation.

USE RATES

It is suggested that **ProSolutions SC Blue** be mixed at the rate of 2 – 4 oz. per 40 gallons of liquid (1/2 to 1 ounce per 10 gallons).

Note: The recommended concentration of **ProSolutions SC Blue** may be adjusted for specific operations. Higher dosage rates will increase the darkness of the spray pattern on leaves and therefore better indicate where spraying has occurred.

STORAGE AND DISPOSAL

STORAGE: Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org.

WARRANTY STATEMENT: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
